

2009-10
LAPEER COUNTY ROAD COMMISSION
ANNUAL BID
GRAVEL HAULING

Quantities & Locations

Maps and quantity sheets showing the locations and the amount of aggregate to be placed at each location will be provided before the work is to start. Also, a work schedule will be provided to coordinate work between the contractor and the Road Commission. Locations, quantities and schedules will be updated and revised as necessary.

Protection & Restoration of Property

The contractor shall restore, at his own expense, any public or private property damaged or injured in consequence of any act or omission on his part or on the part of his employees or agents, to a condition similar and equal to that existing before such damage or injury was done. If the contractor neglects to repair or make restorations, the Engineer may after 48 hours notice to the contractor, proceed to make such repairs or restorations, and will deduct the cost thereof

from any monies that are or may become due to the contractor. At county owned pits, the Contractor shall keep the entrance gate closed and locked at all times except during operation.

Contractor's Responsibility for Work

The contractor shall be responsible for any and all damages that the work may sustain prior to its acceptance and shall rebuild, repair, restore and make good at his own expense, all injuries and damages to any portion of the work by the action of the elements or from any cause whatsoever prior to its acceptance.

Utilities

It shall be the responsibility of the contractor to protect utilities at all times which are shown on the plans, designated by the Engineer, or encountered during the contract. The contractor shall notify the owners of the utilities as to his starting date of construction and the contractor shall conduct his operations so as to interfere as little as possible with utilities or any public authority on or near the work. (Miss Dig)

Completion Date

Completion date for all items of work listed in this proposal is November 1, 2009.

Purchase Orders

Purchase orders are required for all purchases. This number must be given to vendor at the time of order placement and referenced on all packing lists, invoices, and other correspondence. Failure to follow these requirements may result in delay or non-payment of invoices.

Delivery Time

The inability of a vendor to deliver material within the agreed upon delivery time shall be cause to utilize alternate vendors.

Damage Liability and Insurance

The contractor shall save harmless and indemnify the Board of County Road Commissioners of the County of Lapeer against all claims for damages to the public or private property and for injuries to the persons arising out of and during the progress and to the completion of the work.

The contractor shall, prior to the execution of the contract, file with the Road Commission a certificate that he carries Worker's Compensation Insurance.

The contractor, prior to the execution of the contract, shall file with the department, copies of completed certificates of insurance satisfactory to the Road Commission, to afford protection against all claims for damages to property and injuries to persons arising out of and during the progress of the work.

The Road Commission shall be added to these policies as additionally insured, with a 10-day notice of cancellation clause.

Minimum property damage and bodily injury liability covering each contract shall be:

<u>Bodily Injury Liability</u>		<u>Property Damage Liability</u>	
Each person	Each accident	Each person	Each accident
\$1,000,000	\$2,000,000	\$1,000,000	\$1,000,000

Operations shall not commence until insurance is in force and will cease if it is canceled.

Haul Routes

It shall be the Contractor's responsibility to obtain approval from the Road Commission of any haul route that will be used on a continuous daily basis.

Class A loading will be permitted for this project. The contractor shall contact the Lapeer County Road Commission Weighmaster to acquire the necessary transportation permits. (Transportation permit fees ARE NOT waived.) 65' overall length vehicles are permitted by this bid on all County roads. However, some State trunklines in the County do not permit over 59'.

Shoulders

This work shall consist of an aggregate surface constructed on a prepared sub-grade to such a depth as shown on the plans or as directed by the Road Commission.

Dumping shouldering material on the road metal or blading it from the road metal onto the shoulders will not be permitted.

The aggregate shall be deposited on the shoulders in such a manner as to avoid rutting or distorting the base. Any aggregate spilled on the pavement shall be completely removed immediately following the spreading operation.

Material

All material will be inspected by the Road Commission during production or when stockpiled. **The Contractor shall give the Road Commission three (3) days notice before starting production or hauling.**

22A Modified Aggregate

The material shall be 22A Modified Aggregate and shall meet the following requirements:

<u>Sieve</u>	<u>Percent Passing</u>
1 inch	100%
3/4 inch	90 - 100%
3/8 inch	65 - 85%
No. 8	30 - 50%
Loss by Washing	4 - 10%
Minimum Crushed Material	25%

21A Modified Aggregate

The material shall be 21AA Modified Aggregate and shall meet the following requirements:

<u>Sieve</u>	<u>Percent Passing</u>
1 1/5 inch	100%
1 inch	85 - 100%
1/2 inch	50 - 75%
No. 8	20 - 45%
Loss by washing	4 - 10%
Crushed material	90%

23A Limestone

The limestone aggregate shall meet the requirements of Section 306 of the 2003 Standard Specifications for Construction except as follows:

Grading requirements shall be modified to:

<u>Sieve</u>	<u>Percent Passing</u>
1"	100%
3/4"	90 - 100%
1/2"	75 - 90%
3/8"	60 - 85%
No. 8	25 - 60%
Loss by Washing	8 - 12%

The material shall be 100% crushed limestone material.

Certification - The contractor shall provide copies of gradation tests, performed by the material producer, for all material delivered to the project site.

Excessive free water flowing out of the delivery truck at the project site will not be acceptable. Limestone delivery trucks that exhibit free water flow will have the material rejected at the

project site. Moisture in excess of 6% will be deducted from the scale weight of limestone in accordance

with Section 109 of the 2003 Standard Specifications for Construction.

Placing

In general, the aggregate placed or spread on the roads listed in Townships under ITEMIZED BIDS is considered as spot patching (approximate quantities) and will vary in length and depth. The quantity of work will be finalized after the Road Commission has met with the Townships to coordinate the year's program.

The aggregate placed or spread on the roads listed under ITEMIZED BIDS, shall be placed or spread uniformly by means of a mechanical spreader if continuous and by tailgate with spread chains if spot patched.

Weighing

The Contractor shall furnish the Road Commission tickets showing tons of aggregate, furnished, delivered, spread, shaped and compacted for each project separately. A five-part (5) ticket will be required and the Road Commission will retain a minimum of three (3) copies of the ticket.

1. The Contractor shall be responsible for providing scales and assume the cost of some when operating in any pit. The cost for providing scales shall be reflected in the contract unit price. The weigh person shall be provided by the Road Commission or may be a mutually selected third party. Weighpersons other than Road Commission personnel shall be at the Contractor's expense. It shall be the Contractor's responsibility to see that the scales are certified by the appropriate agency and that proof of certification is received by the Road Commission before starting his operation.

2. The use of loader mounted scales will be approved in county owned pits when material is placed on county roads.

Payment for Idle Equipment & Labor

In the event that machinery or equipment is idled due to the failure of the Road Commission to properly provide for the Contractor to proceed with the prosecution of the work in accordance with the terms of the contract, payment WILL NOT be allowed on a rental basis of the idle equipment.

In the event that labor is idled due to the failure of the Road Commission to properly provide for the Contractor to proceed with the work in accordance with the prosecution of the work within the terms of his contract, payment WILL NOT be allowed.
